PRANAV KULKARNI

FRONTEND DEVELOPER

TO
RECRUITING MANAGER

RE: EXPERIENCED FRONTEND DEVELOPER FOR HIRE

Please accept this letter as an expression of my interest in the offered position. I am a highly motivated and progress-focused **Front End Developer** with a real-life experience in this industry. With a track record of initiative and dependability, I have devised strategic initiatives which I believe will prove valuable to your Company. In today's economy, there's no time to waste on workers who lack the necessary skills and motivation. I've got what you need.

I am a **Computer Science** major in my second year at **York University**. I co-founded **Frontend Engine**, an online platform that offers a range of services to students who want to pursue careers in computer science, including **UI/UX development, Java Tutoring, and Mentoring**. Given my coding experience in **Java**, I leverage Frontend Engine to instruct students who wish to learn Java at all levels. Here is the link to the Frontend Engine website we built with **Angular CLI** for you to visit.

(<https://frontend-engine.com/>)

As a result, I have understanding of UI/UX development using the Angular CLI. I am well-versed in **HTML, JavaScript, CSS, and TypeScript**. Through **Java** and **Python**, I have grasped all **OOP** concepts. I've used **Android Studios** to create **Java mobile applications**. All of my projects' links can be found on my Github profile, link for which is provided above.

I'm passionate about what I do, and I like to learn more and also share whatever I've learned to curious students. I have a clean slate because I am a beginner in this industry, thus I am always open to learning anything new. Despite the fact that I am a student, I have worked on **numerous projects**, and I plan to continue working and learning as I go. Therefore joining your company will be the biggest honour for me.

Thank you for your consideration.

YOURS SINCERELY
PRANAV KULKARNI
