Degree Sought: BSC	Faculty: Lassonde School of Engineering
Degree Subject(s): Computer Science	Transfer Credits: 0
Program Campus: Keele	Letter of Permission Credits:
	Date Run: Sep 06, 2023 01:08PM

The Degree Progress Report is a resource for checking your individual progress towards satisfying the requirements of your program. Every effort has been made to accurately present your program requirements and your progress. If you received **transfer credit** for previous post secondary studies, a [link](#) to your most recent transfer credit statement is provided in the top left corner of this report. Click on this statement link to view and/or print your statement.

If your report does not currently reflect your transfer credit information, some requirements may appear as "Not Yet Satisfied". You can learn more about transfer credits and your Degree Progress Report from the [Transfer Credit FAQ](#) page. Official program regulations are available in the [undergraduate calendar](#) for your year of entry into this program. Please note all academic records will have a final, official review by the Registrar's Office in the final year of your studies to confirm graduation and any remaining transfer credit adjustments to your Degree Progress Report will be applied at that time.

**Program Year of Entry:** Unless otherwise specified students are to follow their program year of entry rules.

## Your Degree Progress Status: Some requirements are not yet satisfied

Lassonde School of Engineering, B.Sc., Hons. Computer Science

### York University Requirements

#### NOTICE FOR STUDENTS WHO ENTERED THE PROGRAM PRIOR TO SEPTEMBER 2013

Please note that this Degree Audit tool is applicable only for students who are following an academic calendar from 2013 or later. This tool will not provide an accurate degree audit for students following an academic calendar prior to 2013, in this case please book an appointment to see a Lassonde academic advisor [here](#).

At least 120 **total credits earned**.
